Rhynchosporium secalis **177**
rhythm mutant **210**
ribosomal RNA genes **96**
rice **603**
ring bivalents **33**
Robertsonian fusions **523**
Robertsonian rearrangements **221**
rye **138**

Salmo trutta **488**
seed beetles **623**
selection **386**
self-fertilization **1, 145, 160**
self-incompatibility **155, 193, 581, 591, 596**
selfing rate **642**
senecio squalidus **155**
sex determination **130, 421**
sex linkage **227**
sex-ratio **546**
sexual dimorphism **405**
sexual reproduction **259**
sexual selection **539**
simulation **642**
somaclonal variation **138**
Sorex araneus **221**
spatial structure **64**
speciation **227, 508**
sperm competition **269, 539**
spermatogenesis **532**
staggered clines **523**
starling **318**
Sturnus vulgaris **318**
supernumerary segment **295**
suppressors of meiotic drive **546**
Svalbard **323**
synaptonemal complex **363**
sympatric evolution **242**
synapsis **373**
synaptonemal complexes **305, 342, 373, 394**

tarsus length **318**
temperature **386**
thelytoky **421**

Theobroma cacao **96**
thermal preference **481**
Thinopyrum bessarabicum **369**
Thymus vulgaris **462**
translocation heterozygote **373**
translocation stability **104**
triploid tissues **603**
tristyly **473**
Triticum durum **369**

univalents **33**

variability **516**
variation **363**
viability **74**
Vulpia fasciculata **413**

wild house mice **532**
wing dimorphism **481**
wolf **516**

zebra finch **405**
zooplankton **497**
